## The next generation: the new FEIN MULTIMASTER.

Reduced vibration: more powerful: less operating noise.

Das Original

FEIN MULTIMASTER

**NEW**

up to **35%** more power!  
up to **50%** less operating noise!  
up to **70%** less vibration!

# The original from FEIN. Experience the difference.

The latest generation of the tried and tested FEIN MULTIMASTER is a totally new development. It features a number of benefits to make work noticeably faster, more comfortable and safer. The FEIN MULTIMASTER therefore remains the number one among oscillating power tools for interior work and renovation.

Experience the new FEIN MULTIMASTER FMM 350 Q now at [www.multimaster.info](http://www.multimaster.info) or your specialist dealer.

FEIN range of accessories	Page 22

The FEIN MULTIMASTER is developed and manufactured in Germany. It is the perfect example of the “durable power tools” we strive to build. Its uniquely comprehensive range of accessories in outstanding FEIN quality allows professional users to use this tool for virtually any application.

**1967**

The first oscillating power tool from FEIN: the plaster cast saw.

**1986**

The first delta sander conquers the market: the FEIN SANDER.

**1995**

The FEIN SANDER gives rise to the first FEIN MULTIMASTER. The name says it all thanks to an extensive range of new accessories.

**2007**

The patented QuickIN rapid clamping system from FEIN enables tool-free accessory changes for the first time.

## Re-invented by the original inventor.

FEIN launched the first oscillating power tool more than 45 years ago. Over the decades, we have continuously developed the product into a powerful and universal system for interior work and renovation. Its legendary quality and uniquely wide range of solutions have made the FEIN MULTIMASTER an indispensable tool for manual trades and industry.

### The benefits for you:

- ▶ More than 45 years of experience in oscillation technology.
- ▶ The high quality you would expect from a “Made in Germany” power tool.
- ▶ Unbeatable performance and versatility.
- ▶ FEIN genuine accessories for the best results and maximum tool life.

# 2014

**2011**

The battery-powered FEIN MULTIMASTER completes the renovation system by adding increased mobility with the same performance.

**2014**

The new FEIN MULTIMASTER – maximum performance with minimal vibrations.

The new FEIN MULTITALENT – powerful and universal.

Experience the FEIN MULTIMASTER live

## An old favourite, thoroughly revamped: the FEIN MULTIMASTER.

The FEIN MULTIMASTER has proven itself in millions of cases worldwide over the last 45 years. Developed for professional use, it also effortlessly withstands the toughest of requirements in manual trades and industry. Not only does the new FEIN MULTIMASTER FMM 350 Q continue this tradition, it also makes daily work more efficient, more reliable and simpler. Its innovative design principle means it transfers less vibration, is more powerful and is also quieter than all its predecessors and all other comparable products on the market.

### The benefits of the new FEIN MULTIMASTER:

- ▶ Performance you won't find anywhere else in this class.
- ▶ Totally new design with numerous benefits for everyday use.
- ▶ Comprehensive range of accessories to meet your every need.
- ▶ Leading system thanks to perfect coordination of tool and accessories.

#### QuickIN

Patented QuickIN clamping system for convenient and fast tool changes without a wrench.

#### Metal gearbox

Ability to withstand high loading and outstanding service life. All transmission parts are made from metal. 2 x 1.7° amplitudes ensure outstanding work progress with maximum sanding capacity and cutting performance.

#### Tool mounting

The FEIN 8-star tool mounting guarantees optimum torque transfer on the tool for perfect work progress.

**NEW**

### High-power motor

- ▶ Powerful 350 W motor for optimum work progress.
- ▶ FEIN motor with high copper content for maximum output, more suited to continuous use and overload.
- ▶ Perfectly balanced armature and ball bearings on both sides for extremely smooth running.
- ▶ Newly developed fan for optimum air throughput and therefore ideal motor cooling.

**NEW**

### Tacho generator

- ▶ Tacho generator for constant speeds under load.
- ▶ Infinitely variable electronic speed control.

### Industrial cable

Large working radius and optimum handling thanks to finely stranded 5 metre rubber cable of industrial quality.

**NEW**

### Anti-vibration system

Only FEIN uses:

- ▶ Housing totally disconnected from the motor by flexible damping elements.
- ▶ Vibration reduction of up to 70 %. This results in minimal strain on the body and safe working - even with continuous use.
- ▶ Outstanding noise reduction. More pleasant working for you and people around you.

### Interface

Mechanical interface for stationary operation in the table or drill jig holder or for securing the depth stop.

## Superior in every way: the FEIN oscillator.

The new FEIN MULTIMASTER is setting new standards in health and safety and performance. With up to 70% less vibration and being up to 50% quieter, it takes a lot of the strain off the user. With performance levels increased by up to 35%, it even surpasses the most powerful oscillators on the market.

Together with the FEIN MULTITALENT and FEIN SUPERCUT, professional interior work and renovation users can access a comprehensive system of powerful and universal power tools – from the entry-level model to the special tool.

**Test and compare for yourself** – using our overview, at your specialist dealer or online at [www.multimaster.info](http://www.multimaster.info)

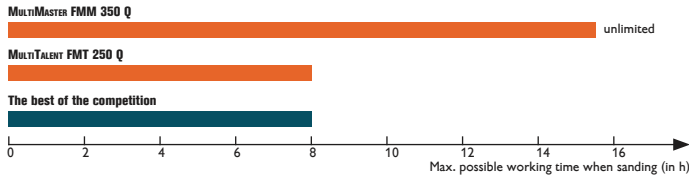

**The new FEIN MultiTalent** –  
join the professional class.

**The new FEIN MultiMaster** –  
the number 1 amongst oscillating  
power tools.

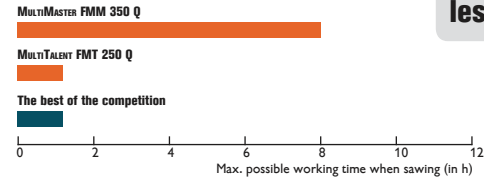

# Comparison of MULTITALENT and MULTIMASTER

## Unlimited sanding!

Depending on accessories and frequency, vibrations on the housing of the FEIN MULTIMASTER are reduced by up to 70% compared with the previous model. In most applications, the new MULTIMASTER achieves vibration class 0 (< 2.5 m/sec).

## Saw for longer!

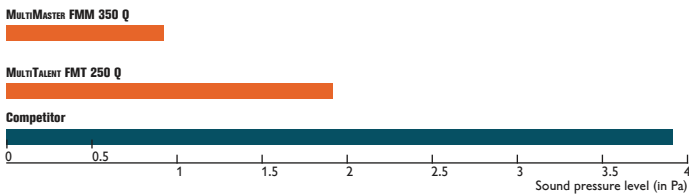

Even in the worst case scenario, only vibration class 1 is reached. Users can therefore work for around 8 times longer with the new MULTIMASTER than with its predecessor or a powerful competitor before reaching the daily vibration limit permitted in Germany and most of the EU.

Upto  
**70%**  
less vibration

## Half the noise!

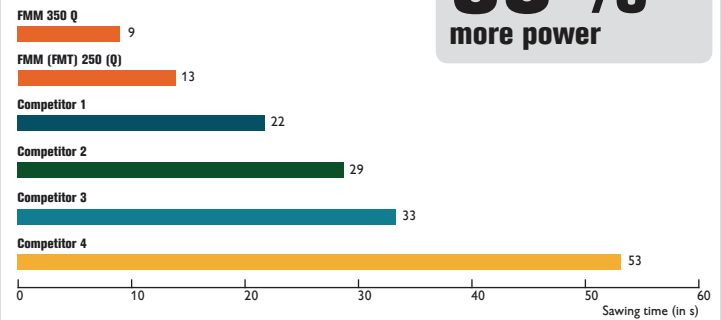

Upto  
**50%**  
less operating noise

Almost half the sound pressure level of the previous FEIN MULTIMASTER 250 model. (Sound pressure level in Pa, measured with the tool switched on at maximum speed without accessories.)

## Twice the speed!

Upto  
**35%**  
more power

The new FEIN MULTIMASTER 350 Q saws up to 35% faster than its predecessor and at least twice as fast as the most powerful competitor. (Tested by sawing 4 square 8x2.8 cm sections of beech using the saw blade supplied in each case.)

## FEIN MULTITALENT FMT 250/250 Q

- ▶ The gateway to the professional class of oscillating power tools.
- ▶ The benchmark for oscillating power tools.
- ▶ High-performance 250 watt motor.
- ▶ Tried and tested "Made in Germany" FEIN quality.
- ▶ Available with or without the QuickIN quick change system.
- ▶ Extensive range of accessories for countless possible applications.

Detailed information and technical data for the FEIN MULTITALENT can be found on page 20.

## FEIN MULTIMASTER FMM 350 Q

- ▶ The number 1 oscillating power tool.
- ▶ Unique anti-vibration system for virtually vibration-free working and extremely smooth running.
- ▶ Even more powerful than the FEIN MULTITALENT and oscillators from other manufacturers.
- ▶ Optimum health and safety.
- ▶ Tried and tested "Made in Germany" FEIN quality.
- ▶ Outstanding ergonomics and low weight.
- ▶ A versatility never seen before thanks to unique range of accessories.

Detailed information and technical data can be found on page 21.

## FEIN SUPERCUT

- ▶ The specialists with industry-specific accessories.
- ▶ Designed for the toughest industrial use, even when used continuously.

- ▶ Tried and tested "Made in Germany" FEIN quality.
  - ▶ Available with both mains and battery power.
- For more information about the FEIN SUPERCUT please visit [www.fein.com](http://www.fein.com)

## FEIN genuine accessories: perfectly matched to the tool and application.

Only FEIN genuine accessories allow you to optimally exploit the versatility and capacity of the FEIN MULTIMASTER:

- ▶ Accessories ideally matched to the movement as a result of the huge progress made in the development of oscillation technology.
- ▶ Produced from high-quality materials for very high loads and maximum tool life.

- ▶ Ideal work progress and maximum precision when combined with the FEIN MULTIMASTER.
- ▶ Wide range of unique accessories with numerous exclusive FEIN application solutions.

FEIN genuine accessories are also available in various FEIN MULTIMASTER sets. For more details, consult page 20 onwards or visit [www.multimaster.info](http://www.multimaster.info)

A standard drill jig and the FEIN table and drill jig holder turn the FEIN MULTIMASTER into a stationary machine tool for universal use in the workshop or out on site.

Very dirty tile joints can be quickly and easily cleaned without any damage to the tiles using FEIN tile joint cleaner. Even if they were previously extremely dirty, the tiles look brand new again. Given its long service life, this is a highly cost-effective alternative to completely filling in again. Ideal for swimming pools, hotels and domestic bathrooms and kitchens.

### Added value

---

The patented mechanical interface makes the FEIN MULTIMASTER even easier to use. For example, with the depth stop for precise working, use in a drill jig or directly on the workbench using a table bracket.

### Versatility

---

Our advanced development and over 45 years of experience are embodied in every single FEIN genuine accessory. We are continually adding useful new accessories to the range of FEIN MULTIMASTER applications, for example the cleaning set for tile joints. FEIN therefore provides the most extensive range of accessories on the market.

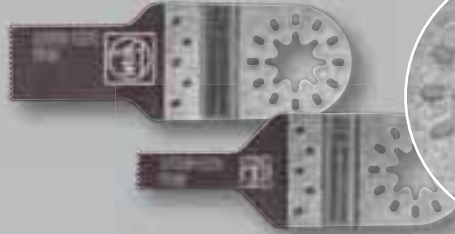

# NEW

New for the FEIN MULTIMASTER: accessories for even greater versatility.

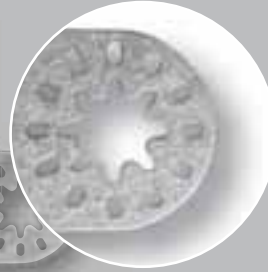

### Cleaning set for tile joints

Quickly and effectively gain impressive results without too much effort. The alternative to filling in again.

### E-Cut Long-Life saw blades

Very narrow design of the tried and tested FEIN E-Cut saw blades with long-life quality. Now also available for tiny recesses with widths starting at 10 mm.

### The FEIN Multi Mounting:

Numerous genuine FEIN MULTIMASTER accessories are now equipped with a combination of the tried and tested FEIN 8-star mounting and a 12-pin mounting. This allows the FEIN accessories to also be fitted on many other manufacturers' oscillators using the Multi Mounting and without the need for an adapter – thereby greatly improving their performance in most cases.

- suitable for: ▶ FEIN  
▶ Bosch  
▶ Rigid  
▶ Makita  
▶ Milwaukee

The narrow FEIN E-Cut Long-Life saw blades have bi-metal teeth with an offset optimised for wooden materials. They can cope with nails and are very robust when they encounter masonry and other hard materials. Thanks to the relatively large offset, the saw blades also work perfectly at deep cutting depths in hard materials, such as solid beech.

Only FEIN provides a complete range of accessories for all sanding applications. For sanding very narrow edges, profiles and surfaces with a huge choice of abrasive materials for virtually all materials and surfaces. With or without dust extractor for perfect dust extraction.

## Cost-effectiveness

The quality of FEIN genuine accessories ensures long tool lives and great performance. For example, the FEIN E-CUT Long-Life saw blades which we manufacture ourselves in Germany. Combined with the FEIN MULTIMASTER, this produces a highly efficient saw for a large number of different applications. And using the FEIN Multi Mounting, they also fit on many other popular oscillators.

## Exclusivity

Numerous accessories are only exclusively available from FEIN and only for the FEIN MULTIMASTER. For example, the round 115 mm diameter backing pad for sanding large areas. When combined with the highly robust tool components and given the power of the FEIN MULTIMASTER, the sanding capacity of most oscillating or eccentric sanders is far surpassed.

See page 22 onwards for the complete range of accessories.

## Sand corners, edges and large areas perfectly – with just one power tool.

The MULTIMASTER simply and effectively renovates painted and weathered surfaces, such as wooden windows, garage doors and steps. FEIN genuine accessories allow you to precisely work on surfaces, corners, edges, grooves, profiles and difficult-to-reach spots. Use the segment saw blade to remove old putty quickly and with ease and use the round backing pad to make great work progress on large areas.

You will find all the versions and order numbers on page 20 onwards.

### The benefits for you:

- ▶ Comprehensive application solutions for complete renovation processes from one source.
- ▶ FEIN genuine accessories for the best results and maximum tool life.
- ▶ Sand corners and edges just as perfectly as large areas – with just one tool and with or without dust extraction.

**Sanding corners / edges**

Use the triangular sanding pad without kick-back to sand into all corners and on edges.

**Removing glass from windows**

Brittle putty can be removed with ease and without the risk of glass breakage using the HSS segment saw blade.

**Sanding gaps**

The flat sanding pad can also be used in narrow gaps, e.g. for window shutter slats.

**Sanding surfaces**

The round backing pad sands surfaces with an enormous sanding capacity, thereby exceeding most oscillating or eccentric sanders.

**Dust-free sanding**

The highly effective dust extraction device can be used with the round backing pad, the perforated triangular sanding pad or the carbide rasp. The powerful and versatile dust extractor FEIN DUSTEX with automatic switch-on function ensures reliable extraction and dust-free working. Detailed information about the FEIN DUSTEX can be found on page 27.

**Rough sanding**

The carbide rasp removes old paint and stubborn signs of weathering with great speed and effectiveness.

**Sanding grooves / profiles**

The profile sanding set is ideal for sanding tongue and groove boards and plenty of other concave or convex profiles.

## Everything you'll need in one tool: the professional aid in interior work.

The FEIN MULTIMASTER is the perfect tool for all interior and installation work. Manual work that was previously time-consuming can be handled much faster and more efficiently with the MULTIMASTER FMM 350 Q. It saws everything – from very fine cuts and recesses to heavy beams and construction wood. The FEIN MULTIMASTER delivers impressive results especially where space is tight in angles and corners – thereby ensuring rapid, fatigue-free working.

You will find all the versions and order numbers on page 20 onwards.

### The benefits for you:

- ▶ Sawing, sanding, dividing and more besides – the FEIN MULTIMASTER has an almost unlimited range of uses in the interior work segment.
- ▶ QuickIN clamping system for convenient and fast accessory changes without any tools.
- ▶ FEIN genuine accessories for the best results and maximum tool life.

**Cutting plasterboard**

The E-CUT saw blades make light work of cutting plasterboard and will saw flush to the surface.

**Accurate cutting**

Sawing recesses for subsequent installations isn't a problem.

**Installations**

Very clean cuts are possible with the M-CUT saw blade.

**Recesses**

Cut-outs with edge lengths 10 mm or more can be made with ease using the narrow E-CUT Long-Life saw blade.

**Sawing tiny cut-outs**

The saw and file set containing two M-CUT saw blades and one carbide file can produce tiny cut-outs in restricted spaces in fibreglass, carbon fibre-reinforced plastic, wood and sheet metal.

**Sawing construction wood**

The E-CUT Universal saw blade with a cutting depth of 60 mm for clean cuts in construction wood with and without depth stop.

**Installation work**

The robust E-CUT Long-Life saw blades with bimetal teeth have a very long tool life and will even saw through nails.

**Sawing flush to the wall**

Pipes can be sawn off flush to the wall with the E-CUT Universal saw blades.

**Restoring furniture**

Accessories for sanding and polishing quickly remove signs of use and restore furniture to its former glory.

## Removing, adapting, replacing: perfect for walls and floors.

The FEIN MULTIMASTER can undertake all work required on walls and floors – from renovating living rooms and bathrooms to the renovation and redesign of indoor and outdoor areas. With its range of accessories, which were specially developed for the individual applications, and comfortable handling, the FEIN MULTIMASTER saves a great deal of time and effort in all work steps.

You will find all the versions and order numbers on page 20 onwards.

### The benefits for you:

- ▶ Powerful, universal system, that saves you from time-consuming and laborious manual work.
- ▶ Powerful FEIN MULTIMASTER suited to overload, perfect for continuous use under very tough conditions.
- ▶ Extensive range of FEIN genuine accessories for numerous applications and quick results with outstanding quality.

**Removing adhesive residue**

Carpet adhesive residue and coatings don't stand a chance against the rigid stopper knife.

**Sanding down parquet**

Where others dare not tread, the MULTIMASTER's good sanding capacity delivers fantastic results.

**Subsequent cut-outs**

The circular saw blade with depth stop is ideal for adapting laid floors at a later date.

**Adapting door frames**

The robust, wide E-CUT Long-Life saw blades are ideal for cutting door frames to length.

**Removing tile joints**

When removing damaged tile joints in corners and on edges, the carbide segment saw blade ensures precise working without overcutting.

**Renovating joints**

The diamond segment saw blade has an impressively long tool life and is also suited to frost-proof grout materials containing epoxy resin in outdoor projects or swimming pools.

**Touching up joints**

The tile joint cleaner allows tile dirt to be effectively and cheaply removed with minimum effort.

**Cutting parquet / laminate**

Parquet, laminate or composite materials – the E-CUT Universal saw blade cuts all materials with precision.

**Sawing skirting boards**

If you're adapting skirting boards, the E-CUT saw blades will deliver clean mitre cuts.

**Sanding surfaces**

The all-round talent: the carbide rasp smooths tile adhesive and ensures a level base.

## On the road and on water: vehicle and boat maintenance.

With its diverse range of uses and outstanding capabilities, the FEIN MULTIMASTER is ideal for everyone who repairs or renovates vehicles on a regular basis. It works with extreme precision and with very little vibration thanks to its design principle. This is hugely beneficial during continuous use, heavy-duty cutting work and when working with a wide range of materials. Its accessories are perfectly matched to the tasks in hand, making it the ideal tool for automotive and boat maintenance.

You will find all the versions and order numbers on page 20 onwards.

### The benefits for you:

- ▶ Maximum output under the toughest of conditions thanks to a 350 W FEIN high-power motor with tachometer.
- ▶ Perfect results every time in a huge number of different materials through use of the right FEIN genuine accessories.
- ▶ FEIN "Made in Germany" quality for maximum durability and very long tool and accessory lives.

### Repairing sections

The sturdy HSS saw blades repair sections at speed. Can be rotated on the drive shaft several times for a longer tool life.

**Restoring teak decks**

Fully restore decks – up to 80% faster. Firstly, damaged PU joint material is removed with special FEIN cutter blades. Then the joints are cleaned with the carbide segment saw blade and the deck is re-grouted. Excess material can be quickly and cleanly levelled with the rigid stopper knife. Finally, the complete deck is sanded down.

**Adapting subsequent installations**

M-CUT saw blades are ideal for subsequent installations. Precise results without any damage whatsoever.

**Minor repairs**

Damaged parts of fibreglass hulls can be cleanly cut out with the HSS saw blade – without disturbing the laminate structure.

**Restoring acrylic and polycarbonate**

Use special sandpaper to remove scratches on gelcoat or acrylic or polycarbonate glass. For reworking: FEIN EXTRA polish.

**Sanding**

Rectify paint flaws and defects cleanly and at speed: the triangular sanding pad delivers a high sanding capacity and an even sanding pattern.

**Precise cut-outs**

The MINICUT and file set ensures precise cuts in difficult-to-reach spots. Universal use for sawing and filing edge lengths of 10 mm and more.

**Removing underseal**

The rigid stopper knife can also be used to remove underseal and other stubborn coverings in the best possible time.

## Always a good idea: solutions for the workshop and model-building.

Mobile or stationary, the FEIN MULTIMASTER is a precise and perfect tool for every last detail. Its extensive range of system accessories opens up an unimaginable number of applications and solutions for various challenges. It always impresses with great work progress, flexible handling and high levels of precision, even for filigree work.

You will find all the versions and order numbers on page 20 onwards.

### The benefits for you:

- ▶ Versatile and powerful, the FEIN MULTIMASTER for universal use in the workshop and model-building is always a good solution.
- ▶ A system satisfying your every need: great versatility with FEIN's extensive range of genuine accessories.
- ▶ Incredible precision right down to the last detail: exact, sensitive work on a multitude of materials.

### Stationary working

Only from the FEIN MULTIMASTER: ability to clamp in standard drill jigs – for cuts with absolute precision at exact depths, e.g. for accurate notches.

**Saw and file set**

The saw and file set is ideal for smaller recesses. Two M-CUT saw blades of different widths and one carbide file ensure maximum precision and clean cut edges.

**Sawing**

The narrow M-CUT saw blades aren't fazed by recesses of 10 mm or more in length.

**Sharpening**

The diamond file insert in the MINICUT and the file set is perfect for sharpening blades and tools.

**Filing**

The carbide file is ideal for filing or deburring – it can even be used stationary if combined with the FEIN table and drill jig holder.

## A perfect match for every need: the FEIN oscillator sets.

No matter whether you are working with a FEIN MULTIMASTER or FEIN MULTITALENT, whether your tool is mains- or battery-powered: the FEIN oscillator system is perfectly matched to the everyday needs of professional users. The practical sets and extensive range of accessories make possible an unsurpassed versatility in all interior and renovation work.

You can choose between various high-quality FEIN sets, ranging from the entry-level range to the complete set, including the powerful and universal FEIN DUSTEX dust extractor.

### BEST OF E-CUT accessory set

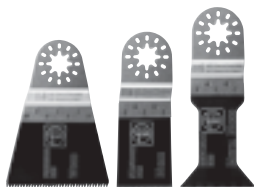

Comprising 6 different E-Cut saw blades at a special price. Contains: 1 x each of E-Cut Universal 29 mm and 44 mm wide, 2 x E-Cut Long-Life 35 mm wide, 2 x E-Cut Long-Life 65 mm wide, in a practical plastic storage box. With FEIN Multi Mounting, suited to all common multi-function tools.

Order number	6 35 02 152 15 0
--------------	------------------

**E-Cut saw blade pairing**

Consisting of 3 different E-Cut saw blades: 1x E-Cut Precision 65 mm wide, 1x E-Cut Standard 35 mm wide, 1x E-Cut Universal 44 mm wide. With these blades, you are perfectly equipped for any sawing job. With FEIN Multi Mounting, suited to all common multi-function tools.

Order number 6 35 02 127 04 0

**HSS saw blade for wood**

Round HSS saw blade for wood – the “mini circular saw” is ideal for long, straight cuts and for making cut-outs in laid parquet, laminate and wall panelling.

Ø mm Order number  
100 6 35 02 154 01 0

**Saw blade set**

Round HSS saw blade for wood, diameter of 100 mm including depth stop. Only suited to mains- and battery-operated FEIN MULTIMASTER.

Ø mm Order number  
100 3 26 07 065 02 0

**Depth stop**

Depth stop suitable for all E-Cut saw blades and round saw blades. Only suited to mains- and battery-operated FEIN MULTIMASTERtools.

Order number 3 21 27 069 01 0

**Contact guard**

Spare contact guard for HSS saw blade 6 35 02 154 01 0.

Order number 3 18 10 263 00 0

**M-Cut saw blade**

For cut-outs in fibreglass, CFRP, wood and sheet metal, edge length as of 10 mm, max. cutting depth approx. 28 mm (fibreglass, wood), in sheet metal approx. 1 mm, length 50 mm.

Width mm Qty. Order number  
10 2 6 35 02 159 01 0

For cut-outs in fibreglass, carbon fibre-reinforced plastic, wood and sheet metal, edge length as of 30 mm, max. cutting depth: 45 mm (fibreglass, wood), in sheet metal approx. 1 mm, length 50 mm.

Width mm Qty. Order number  
30 2 6 35 02 157 01 0

**Carbide file**

For deburring and filing cut-outs in fibreglass-reinforced plastics, carbon fibre-reinforced plastic, plastics and wood, length 50 mm.

Width mm Qty. Order number  
10 2 6 37 06 017 01 0

**Saw and file set**

Saw and file set for recesses in fibreglass, carbon fibre-reinforced plastic, wood and sheet metal. M-Cut saw blade 10 mm and 30 mm, carbide file 10 mm.

Order number 6 35 02 157 02 0

**MINICut and file set**

For cut-outs from 10 mm. 2 saw blades for wood and soft plastics, 2 HSS saw blades for hard plastics, fibreglass-reinforced plastics and sheet metal up to 1 mm, 1 diamond file insert, 1 carbide file insert.

Order number 6 39 01 025 06 0

**MINICut saw blade**

For wood and other soft materials, immersion depth 30 mm.

Width mm Qty. Order number  
10 2 6 35 02 132 01 3  
20 2 6 35 02 131 01 0

**MINICut HSS saw blade**

For non-ferrous metals and plastics, immersion depth 20 mm.

Width mm Qty. Order number  
10 2 6 35 02 130 01 1  
20 2 6 35 02 129 01 9

**Diamond file insert**

For sharpening blades and cutters.

Width mm Qty. Order number  
10 Extra fine 6 37 06 014 02 6  
20 Fine 6 37 06 013 02 8  
20 Standard 6 37 06 012 02 4

**Carbide file insert**

For filing cut-outs and for deburring work. Suitable for the MINICUT and file set.

Order number 6 37 06 015 01 0

**Cutting paste**

Lubricant for machining sheet metals.

Order number 3 21 32 020 12 9

**Best of Renovation accessory set**

Complete collection of all important accessories for sawing, removing joints and sanding.

Comprising: 1 x each of E-Cut Long-Life saw blade, 10 and 20 mm, 1 x each of E-Cut Universal saw blade 32 and 44 mm, 3 x each of E-Cut Long-Life saw blades 35 and 65 mm, 1 carbide segment saw blade 90 mm in diameter, 1 carbide file, 1 HSS segment saw blade, 1 rigid stopper knife, 1 backing pad 115 mm in diameter with sanding sheets, 2 each of grit 60, 80, 180, 1 triangular sanding pad, non-perforated with sanding sheets, 5 each of grit 60, 80, 120, 180.

Order number 6 35 02 152 19 0

**Rasping**

**Carbide rasp, triangular**

Carbide-tipped. For rough sanding of fillers, tile adhesive, concrete, stone and wood. Suited to use with or without dust extraction.

Order number 6 37 31 001 01 4

**Carbide rasp, finger-shaped**

For rough sanding of fillers, tile adhesive, concrete, stone and wood. The finger-shaped version, which is coated on both sides, is particularly well suited to artistic work.

Order number 6 37 31 002 01 7

**Removing joints**

**Carbide segment saw blade**

For cutting out damaged tile joints and for cutting grooves in plaster, porous concrete and similar construction materials. Also suited to reworking deck joints.

Cutting width approx. 1.2 mm

Ø mm Qty. Order number  
90 1 6 35 02 170 01 0

## ACCESSORIES

### Carbide saw blade

Extra thin version for very narrow tile joints. Cutting width approx. 1.3 mm.

Ø mm	Order number
63	6 35 02 125 01 0

### Diamond segment saw blade

For cutting out damaged tile joints and for cutting grooves in plaster, porous concrete and similar construction materials. Long service life.

Cutting width approx. 2.2 mm.

Ø mm	Qty.	Order number
63	1	6 35 02 114 01 7
63	5	6 35 02 114 02 0
90	1	6 35 02 166 01 0
90	5	6 35 02 166 02 0

### Diamond saw blade

For cutting out marble and concrete trass joints. Produces minimal dust levels, very long service life.

Cutting width approx. 2.2 mm.

Ø mm	Qty.	Order number
63	1	6 35 02 105 01 2
63	5	6 35 02 105 02 0

### Cleaning block

Rhombus for cleaning carbide and diamond tools.

Order number	6 37 19 007 01 0
--------------	------------------

### Cleaning set for tile joints

For cleaning very dirty tile joints. Suitable for all widths of tile joint.

**NEW**

Qty.	Order number
2	6 37 19 011 12 0

## Scraping

### Rigid stopper knife

For removing stubborn old paint, adhesive residues, carpets, tile adhesives and coats of underseal.

Length mm	Order number
50	6 39 03 178 01 7
68	6 39 03 226 01 0

### Flexible stopper knife

For removing silicone or acrylic joints in bathrooms and removing stickers.

Qty.	Order number
2	6 39 03 165 01 3

## Sanding

### Sanding pad set, non-perforated

For sanding without extraction.

Qty.	Order number
2	6 38 06 129 02 6

### Sanding pad set, flat

For very narrow openings (e.g. slats on cupboards, window shutters).

Qty.	Order number
2	6 38 06 142 02 9

### Sanding sheet set

For universal use on practically all surfaces. High sanding capacity guaranteed thanks to corundum sanding grits and full bonding with artificial resins. Sanding sheets, unperforated, with hook and loop fastening, 10 each of grit 60, 80, 120, 180, 240.

Order number	6 37 17 082 03 3
--------------	------------------

### Sanding sheets

Unperforated, with hook and loop fastening. For universal use on practically all surfaces.

## ACCESSORIES

### Polishing

#### Felt polishing pad set

For polishing up metal parts, and for polishing and decorative polishing of stone and stone products. Can also be used to work with gelcoats on boats.

Qty.	Order number
2	6 38 06 140 02 7

Material-related polish can be bought from qualified specialist dealers.

#### Felt polishing pad

Felt polishing pad for polishing boat decks (gelcoat), chrome, stainless steel, aluminium, copper and copper alloys.

Qty.	Order number
5	6 37 23 032 01 0

#### Felt polishing pad

Diameter 115 mm, with hook and loop fastening. Versatile in use, for polishing chrome, stainless steel, polycarbonate materials and gelcoat boat decks, for polishing up scratched paint and removing tempering colours on exhaust systems.

Qty.	Order number
5	6 37 23 036 01 0

#### Cleaning bristle fleece

Bristle fleece for cleaning boat decks or cleaning/polishing anti-slip structures.

Qty.	Order number
2	6 37 23 031 01 0

#### Polish

FEIN polish EXTRA based on aluminium oxide for polishing gelcoat and removing scratches in vehicle paint.

ml	Order number
250	6 37 26 030 01 0

### Cutting

#### Segment blade, concave

For cutting soft materials e.g. felt, leather, polystyrene.

Order number	6 39 03 193 01 8
--------------	------------------

#### Segment blade, convex

For cutting rigid materials, e.g. floor panels made of plastic, linoleum, rubber, cardboard, leather, wire mesh, loop-pile carpet/carpet and much more.

Order number	6 39 03 192 01 4
--------------	------------------

#### Cutter blade

For cutting out panelled deck sealant materials safely and at speed. Also for problem areas such as cabins, rails, gunwales, cleats and curves.

Blade width	Order number
3 mm	6 39 03 200 01 7
4 mm	6 39 03 201 01 6
5 mm	6 39 03 202 01 9

### For AFMM 14

#### Rapid charger ALG 50

For all FEIN Li-ion batteries. Charge time from 35 min.

Order number	9 26 04 129 01 0
--------------	------------------

#### Rapid charger ALG 30

Rapid charger for FEIN NiCd and Li-ion batteries.

Order number	9 26 04 096 01 0

### General accessories

#### Table and drill jig holder

Perfect for precision cut-outs: The FEIN MULTIMASTER can be clamped to a table or workbench and the workpiece can be guided safely to the tool. It is also possible to clamp the tool in standard drill jigs with a 43 mm collar diameter – the FEIN MULTIMASTER can be delivered via the mechanism with millimetre precision. Only suited to mains- and battery-operated FEIN MULTIMASTER.
